Amino acids for overall health

Organika's Enhanced Collagen powder contains 17 essential amino acids and 9G of protein per serving, providing support in joint and gut health, skin care and sport recovery.

Benefits in the body from bovine collagen supplementation:

- Supports skin rejuvenation, hydration and texture
- Strengthens and promotes the growth of hair and nails
- Helps maintain healthy joints
- Supports gut health and weight management

Clinical Instance

Individuals seeking healthy maintenance of joint cartilage and function, pain relief. Athletes looking to support joint health and muscular recovery. Anyone seeking skincare support through increased elasticity. Patients in need of gut health support.

Clinical Application

Enhanced Collagen 100% pure hydrolyzed powder can be used for therapeutic relief of joint pain, where it may reduce inflammation, supporting good maintenance of healthy joint cartilage and tissues. Collagen is also shown to increase moisture in the body, support skin repair from UVB damage, reducing signs of photodamage. The amino acids and protein in Enhanced Collagen support the growth and reparation of lean muscle mass; additionally, the amino acid Glutamine is essential in supporting a healthy gut. Enhanced Collagen is also a good consideration for people on a liquid diet regime.

Safety

Consult a health care practitioner prior to use if you are pregnant or breastfeeding; have liver or kidney disease or if you have been instructed to follow a low protein diet. May cause mild gastrointestinal disturbances.

How to Use:

- Mix into your favourite hot or cold drinks
- Add to smoothies, cooking, or baking
- Completely flavourless and odourless
