

# CogniFactors™

**Huperzine A  
Phosphatidylserine  
Acetyl-L-Carnitine**

## INNOVATIVE INGREDIENTS. CLINICAL FORMULATIONS.

Injury, stress, aging and lifestyle factors can have a profound impact on brain health. Featuring ginkgo, phosphatidylserine and DMAE, CogniFactors helps support cognitive function, memory and focus.\*

As we age, our brains undergo various changes involving vasculature, neurotransmitter and hormone levels, memory and cognitive ability, and even brain mass. Phosphatidylserine, a phospholipid found in cell membranes, is highly concentrated in the brain and has been shown to decline as we age. Acetyl-L-carnitine is a carnitine ester naturally made by the body that stabilizes cell membranes, supports mitochondrial function, protects against oxidative damage, and facilitates production of nerve growth factor. It also promotes release of acetylcholine, which is frequently lower than normal in Alzheimer's disease. While research has demonstrated that a healthy diet and exercise are among the best defenses against these age-related changes, supplementing key compounds may provide additional benefit. Several clinical trials support the use of huperzine A for improving memory and cognitive function. Ginkgo may help support healthy capillaries and platelet function, as well as help maintain normal blood circulation to the brain.\*

## FEATURES

- Clinically-researched compounds to support cognition and brain health\*
- Neuroprotective botanical extracts like bacosides and flavonglycosides standardized for potency\*
- Gluten-free, vegan, stearate-free formula

## COGNIFACTORS CAN HELP SUPPORT:

- Neuronal health, myelination and cognitive function\*
- ATP activity and mitochondrial function\*
- Attention and memory as we age\*
- Healthy capillary integrity, platelet function and circulation\*

**Directions:** Use only as directed. Take 2 capsules up to three times daily or as directed by your healthcare practitioner. Keep tightly capped and store in a cool, dry place.

### Two capsules contain:

N-Acetyl-L-Carnitine (from N-acetyl-L-carnitine HCl)	500 mg
Phosphatidylserine (soy)	100 mg
Nattokinase (soy)	100 mg
Bacopa (Bacopa monnieri) (leaf extract) (20% bacosides)	100 mg
DMAE (from dimethylaminoethanol bitartrate)	100 mg
Ginkgo (Ginkgo biloba) (leaf extract) (24% ginkgo flavonglycosides, 6% terpene lactones)	40 mg
Green Tea (Camellia sinensis) (leaf extract) (98% polyphenols, 50% ECGC)	10 mg
R-Alpha Lipoic Acid (from R-alpha lipoic acid sodium salt)	5 mg
Huperzine A (from Huperzia serrata) (extract)	0.1 mg

**Other ingredients:** Vegetable cellulose capsule, cellulose, ascorbyl palmitate, silica, maltodextrin.

**Emerson Code #:** COG12

**Size:** 60 ct

**WHS:** \$24.15

**SRP:** \$48.29
